OBJECTIVE

I have successfully achieved my goals in my life, I am going to present my qualification and personal information.

Working as a Web Developer since last two years, I have 4-year degree of BS (Hons) in Physics, I think. I can survive in any company and in any situation I believe myself as a professional web developer. I have learned following skills while working as a developer.

- To manage large scale business application
- To manage database especially (Mongodb)

I have the hunger to work with new technologies especially express frameworks. I can design, build and maintain the website from scratch using my experiences.

I am having the following skills

HTML, CSS, React JS, JavaScript, Express, Node Js, Mongodb

Using these technologies I can design, build, maintain website's also I can also apply new technologies.
